CLINIC DETAILS

Week long workshops and riding adventures are designed for those wanting to improve their confidence, communication, partnership and safe riding skills with horses. Professionals as well as pleasure riders benefit greatly from this week of intense study and fun. As the week progresses each day builds on the previous. Each day takes on its own personality as side trips riding into the rolling mountains and numerous multi colored canyon, discovering and learning about the fern and fauna, horse shoes, swimming, roping and adult camaraderie develop. Campfires, dinners under the stars, music, storytelling, dancing, recapping the day's events with new friends, is enjoyed by all. Viewed as an adult camp with a theme, this format has the highest retention by the students. Working with a large variety of horses with varying personalities and issues, is an invaluable opportunity and critical to the learning process. There is no substitute for handling dozens of horses this week
